CWLP CREWS RESPONDING TO MAIN BREAK ON SOUTH GRAND

*Break necessitates water shut-down on South Grand
between Pope and Wheeler*

The CWLP Water Department is responding to a break in a 6" water main at the intersection of South Grand Avenue East and Pope Avenue. The severity of the break has forced the utility to shut down water flow along South Grand between Pope and Wheeler Avenues.

Repair work will require a pavement opening and closure of the east-bound lane of South Grand between Wheeler and Pope, as well as Pope Avenue between Brown and Pine Streets. These closures will remain in effect until surface pavement repairs can be made.

As of 2:30 p.m., July 15, no estimate was available regarding how long it would take to repair the main and restore water service.
