SOUTH GRAND WATER MAIN BREAK REPAIRED

Water service restored to one-block area affected by break

The water main break at the intersection of South Grand and Pope Avenues has been repaired and water service has been restored to all customers in the one-block area between Pope and Wheeler Avenues who were affected by the break. Service was restored Thursday evening.

No boil order is in effect at this time. Water samples have been taken and will be tested to ensure its quality.

The east-bound lane of South Grand between Wheeler and Pope, as well as Pope Avenue between Brown and Pine Streets, will remain closed until surface repairs to these roads can be made.
