NORTH NINTH STREET WATER MAIN WORK BEGINS MONDAY

Lanes will be reduced in the 300-block of North Ninth Street across from St. John's Hospital beginning on Monday, January 23rd to accommodate a City Water, Light and Power Water Department crew, which is scheduled to terminate a leaking water service. This work will allow for an open traffic lane going in each direction, north and south, on Ninth Street between Madison and Mason Streets. Access to the Ninth Street emergency room drive of St. John's Hospital will remain open to the public during this work.

Lane reductions will remain in place until road surface pavement repairs are complete. During this work and lane reductions, motorists should plan for alternative routes. This work will be rescheduled in the event of inclement weather.
