WATER OUTAGE PLANNED FOR 26 CUSTOMERS

The City Water, Light and Power Water Department has scheduled a water outage for Thursday, July 7th, to allow for the replacement of a broken water main valve at 12th and Clay Street, which is causing low water flow in the area.

Twenty-six customers located in the 1100 block of East Clay and the 700, 800 and 900 block of S. 12th Street will be without service beginning after 8 a.m. during the work, which is expected to last about two hours.

The work will be rescheduled in the event of inclement weather. Customers in this area with questions may call 789-2323 or visit our Facebook page at www.facebook.com/4CWLP for other updates or questions on the work.
