## **WESLEY STREET HYDRANT REPAIR PLANNED**

On Thursday, November 17th, the City Water, Light and Power Water Department has scheduled a crew to replace a broken fire hydrant and install a new water main valve at the intersection of North Wesley and East Carpenter Streets. This work will require water service to be shut down along Wesley Street between Mason and Enos Streets from about 8 a.m. until noon. Customers affected are in the 300, 400, 500 and 600 blocks of North Wesley Street.

During pairs one lane on Wesley Street will be closed temporarily. This work will be rescheduled in the event of inclement weather.
