## **CWLP RECOMMENDS WATER SHUT-OFFS FOR EMPTY PROPERTIES**

City Water, Light and Power is recommending that property owners consider shutting off water service in any properties, which could be vacant for an extended period of time. Over the past week the utility has been made aware of multiple vacant properties that sustained water damage due to copper thefts of internal water pipes.

CWLP can accommodate terminating water service temporarily via its customer service office, 789-2030. Customers who shut off service will not accrue additional charges while service is off. A \$35 reconnect fee will be applied to the account when service is restored.
