

CWLP AIR CONDITIONER REBATE APPLICATION

The online Air Conditioner Rebate Application can either be (a) filled in online then printed out or (b) printed out and then filled in by hand. The application **cannot** be submitted electronically.

Both you and your HVAC contractor must sign the document.

The application must be accompanied by a detailed proof of purchase (preferably a sales receipt) that includes the model numbers and SEER/EER.

Return the completed application by mail or in person to:

CWLP Energy Services Office
1008 E. Miller Street
Springfield, IL 62702

AIR CONDITIONER REBATE APPLICATION

For New High Efficiency A/C Units Installed after 3/1/2020

PLEASE PRINT CLEARLY

NAME : _____ DAY PHONE : _____

INSTALLATION ADDRESS : _____

CITY/STATE : _____ ZIP : _____ SQ. FT. : _____

MAILING ADDRESS (If different than above) : _____

DID YOUR HVAC CONTRACTOR PERFORM A LOAD CALCULATION? YES NO

CONDENSING UNIT MANUFACTURER : _____ MODEL # : _____

INSIDE "A" COIL MANUFACTURER : _____ MODEL # : _____

AHRI REFERENCE NUMBER : _____

DOES THIS SYSTEM HAVE A VARIABLE SPEED BLOWER? YES NO

DATE INSTALLED : _____ # OF SAME UNITS : _____

SEER: _____ EER : _____ COOLING CAPACITY : _____

HVAC CONTRACTOR : _____ PHONE : _____

(Check Only One)

WAS THIS AIR CONDITIONER INSTALLED IN : New Construction? An Existing Building?

WHAT TYPE OF COOLING SYSTEM DID THIS AIR CONDITIONER REPLACE?

No previous air conditioning Central Air Conditioner

Window Air Conditioner Heat Pump

Estimated age of the old system : _____

WAS THIS AIR CONDITIONER INSTALLED IN CONJUNCTION WITH A NEW HEATING SYSTEM?

YES NO

IF YES, WHAT TYPE OF NEW HEATING SYSTEM WAS INSTALLED? MODEL # : _____

GAS ELECTRIC

AND WHAT TYPE OF HEATING SYSTEM DID YOU REPLACE?

Boiler Only Gas Forced Air Electric Baseboard Heaters

Electric Forced Air Other (please specify) : _____

WHAT IS THE TOTAL HOUSEHOLD INCOME LEVEL? (optional)

\$0 to \$30,000 \$30,001 to \$60,000 \$60,001 to \$90,000

\$90,001 to 120,000 Over \$120,001

TOTAL NUMBER OF OCCUPANTS IN HOUSEHOLD :

1 to 2 3 to 4 5 to 6 7 to 8 Over 8

I have read the rules and regulations that govern this program. By signing below I affirm that the information provided above is correct.

CUSTOMER'S SIGNATURE _____ CONTRACTOR'S SIGNATURE _____

ATTACH DETAILED SALES RECEIPT

Please complete and sign this form. Unsigned or incomplete forms will be returned to you, delaying your rebate. Attach a copy of your sales receipt (containing the model numbers and SEER/EER) to the application. Mail the completed application and receipt to CWLP Air Conditioner Rebate, 1008 E. Miller St Springfield, IL 62702. Applications must be received by CWLP within one year of the installation date of your air conditioner. The form must be signed both by you and your Air Conditioner Contractor.

AIR CONDITIONER REBATE APPLICATION

WHY WORRY ABOUT EFFICIENCY?

An air conditioner's efficiency level is important. Switching to a system with a higher operating efficiency will save you money each time you turn it on. For example, if you now have a 20-year old 10 SEER 3 ton air conditioner that costs you \$396 a year to operate, you could save almost \$148 a year in operating costs by replacing it with a new 16 SEER unit.

This chart compares estimated annual operating costs and rebate amounts for air conditioners with different SEER levels and cooling capacities. Cost of operation is based on 1,000 hours of operation and an average cost of 11¢ per kwh.

COOLING CAPACITY			13.0 SEER	16.0 SEER	18.0 SEER
2 ton	24,000 Btu/hr	operating cost	\$203	\$165	\$147
		rebate	\$0	\$200	\$200
2.5 ton	30,000 Btu/hr	operating cost	\$254	\$206	\$183
		rebate	\$0	\$250	\$250
3 ton	36,000 Btu/hr	operating cost	\$305	\$248	\$220
		rebate	\$0	\$300	\$300
3.5 ton	42,000 Btu/hr	operating cost	\$355	\$289	\$257
		rebate	\$0	\$350	\$350
4 ton	48,000 Btu/hr	operating cost	\$406	\$330	\$293
		rebate	\$0	\$400	\$400
4.5 ton	54,000 Btu/hr	operating cost	\$457	\$371	\$330
		rebate	\$0	\$450	\$450

Air Conditioner Rebate Program Rules and Regulations

- Only new central air conditioners with ratings equal to or greater than 16 SEER and 12.5 EER installed on or after 3/1/2020 qualify for a rebate.
- The rebate is available only for units installed in property that receives CWLP metered residential electric service in the following rate classes; 30, 31, 32, 33, 34, 35, 36 and 37. No commercial rated buildings are eligible.
- There are no restrictions regarding the number of units per property that can qualify for rebates.
- The schedule applies only to central air conditioners with cooling capacities of less than 72,000 Btu/h (6 tons).
- In the case of replacement air conditioners, the system will qualify for a rebate only if the condensing unit and the "A" coil are both replaced at the same time. Furnace must be equipped with a variable speed blower motor to meet the efficiency requirements.
- The central air conditioner must be installed by an HVAC contractor licensed to operate in Springfield, IL. System capacities and SEERs/EERs will be verified by ratings provided by the AHRI Directory of Certified Unitary Equipment.
- In the case of unmatched systems where no ratings are provided by AHRI, the HVAC contractor must provide manufacturer SEER/EER and cooling capacity information.
- All questions on the rebate application must be completed and the form must be signed by both the customer and the HVAC contractor.
- CWLP reserves the right to make on-site inspections of the Air Conditioner installation.
- Applications, accompanied by proof of purchase with purchase cost, must be received by CWLP within one year of the installation date to be eligible for the rebate.
- Funding is limited and is available only to CWLP electric customers on a first-come, first-served basis. This offering is subject to change without notice. All air conditioner rebates will be issued in the form of a bill credit once installation and information have been verified. NOTE: CWLP account must be current, any amount due (older than 30days) will be deducted from the rebate amount.

Calculating Your Air Conditioner Rebate . . .

Only new central air conditioners with ratings equal to or greater than 16.0 SEER and 12.5 EER installed on or after 3/1/2020 qualify for a rebate.

Follow these steps to calculate your rebate amount:

(Step 1)

Divide the number of Btu/h of your air conditioner's cooling capacity by 12,000 to determine the cooling tons.

$$\frac{\text{cooling capacity in Btu/h}}{12,000} = \text{cooling capacity in Tons}$$

(Step 2)

Multiply the cooling Tons by \$100 to get Rebate amount.

$$\text{cooling capacity in Tons} \times \$100 = \$ \text{rebate amount}$$
